-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

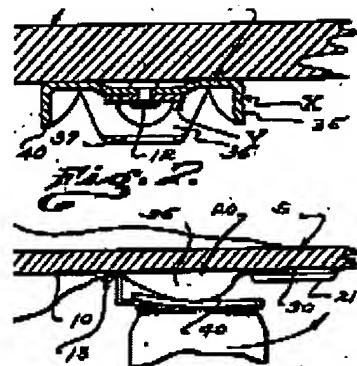

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Wilson (2,671,362).

Wilson ('362) discloses a bottle opener for removing both screw on jar lids and bottle caps, the opener having a triangular shape, mounts to the underside of a horizontal surface, has a base, first 35 and second 40 leg portions, a third leg 36 coupled between the first ends of the first and second leg portions and having a horizontal edge portion 37 engaging and removing a bottle cap, holes formed in the base to secure the opener to the horizontal surface, and the horizontal edge portion extends substantially the entire length of the third leg.

Response to Arguments

3. Applicant's arguments filed April 28, 2005 have been fully considered but they are not persuasive. The applicant alleges that Wilson only provides means for removing twist or screw caps, and that the device of Wilson is "relatively complex". Wilson provides for both screw on jar lids and crimped-on bottle caps. Whether the device is "relatively complex" or not is a moot point, as Wilson provides each of the claimed

Art Unit: 3723

elements which define the opener as claimed, and the fact that the opener of Wilson may be "more complex" or includes additional structure not claimed is irrelevant.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
